MATRIX's **DESTINATION BRIDES** brings you fresh trends of the season that will elevate your bridal look.

With the fresh season, fresh trends start making their way on the horizon. The sheer number of hair colour trends this year are sure to confuse and confound you.

Whether its gorgeous greys or metallics; subtle highlights or ash browns, the multiplicity of choices is sure to leave you confused. We've seen a lot of women sporting gold hues, shades of wine, plums and reds. Let MATRIX tell you how to do it right and incorporate these colours into your look. MATRIX's **DESTINATION BRIDES** brings you hot hair trends that will take you through your wedding looking stylish and trendy.

Get inspired by the look of the **Modern Maharani** if your taste is inimitably classic. If you prefer elegant refinement and a certain kind of regality, extend it to your choice of hair colour. The warm and rich hues from the gold palette are used to combine the bride's fierce modernity and old worldliness. Natural and sunny highlights can be created by sweeping the hair using graduated weaves. If a royal palace is your preferred venue, it is evident that you would choose a look that's timeless. Get the look with **SoColor #5.3, #7.3, #12.35 (Gold).**

The Boho Beach Bride look is for the free-spirited woman with high-energy. The beach bride is not constrained by convention. This aspect can also be brought out by your choice of colour. Using techniques of Strobming and Balayage, the bride's vivacious and effervescent personality is brought out. The beach is the perfect setting for your wedding as the ocean reflects your opposing traits of serenity and liveliness. Get the look with **SoColor #6.28 (PLum) and Light Master.**

The Ethereal Garden Bride look is innocent and naive. The garden bride loves nature and this is reflected in her choice of the venue. Delectable colours such as plums and reds are used to colour hair freehand. A garden is the perfect setting to highlight her innocence and purity with luscious colours. Get the look with **SoColor #6.62, #4.62 and SoRed #6VR.**
